

OBJETOS

To incorporate **Adelaide's Bat & Shield** into your game, simply shuffle it into the chosen location's deck of Item cards before setup.

If you'd rather ensure that it is present in your game, deal out the appropriate number of Item cards less one. Then shuffle **Adelaide's Bat & Shield** into this deck before dealing out the separate Item decks.

For example, if setup called for three Item decks of four cards each, you would first deal out 11 Item cards and shuffle them with Adelaide's Bat & Shield. Then, you would deal out the three Item decks as normal.
